The coffee-crazed city of Melbourne (Australia) has more coffee shops per person than any other city on the planet, which is one of the reasons the city has been nicknamed the coffee capital of the world. The love of coffee is slowly moving across the US. People no longer only run in, grab a cup of coffee and run out again. The experience has now become one of taking time to enjoy a well-made coffee, a chat with a friend or friends, some good food and a space to sit and enjoy the day. Welcome to that space in Lighthouse Point
